

DISTRICT WELLNESS GUIDELINES

Oak Hills Local School District is committed to the optimal development of every student. The District believes that for students to have the opportunity to achieve personal, academic, developmental and social success, we need to create positive, safe and health-promoting learning environments at every level, in every setting, throughout the school year.

Research shows that two components, good nutrition and physical activity before, during and after the school day, are strongly correlated with positive student outcomes. For example, student participation in the U.S. Department of Agriculture's (USDA) School Breakfast Program is associated with higher grades and standardized test scores, lower absenteeism and better performance on cognitive tasks. In addition, students who are physically active through active transport to and from school, recess, physical activity breaks, high-quality physical education and extracurricular activities – do better academically.

This policy outlines the District's approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this policy establishes goals and procedures to ensure that:

- Students in the District have access to healthy foods throughout the school day – both through reimbursable school meals and other foods available throughout the school campus– in accordance with Federal and state nutrition standards;
- Students receive quality nutrition education that helps them develop lifelong healthy eating behaviors;
- Students have opportunities to be physically active before, during and after school;
- Schools engage in nutrition and physical activity promotion and other activities that promote student wellness;
- School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- The community is engaged in supporting the work of the District in creating continuity between school and other settings for students and staff to practice lifelong healthy habits; and
- The District establishes and maintains an infrastructure for management, oversight, implementation, communication about and monitoring of the policy and its established goals and objectives.

This policy applies to all students, staff and schools in the District.

DISTRICT WELLNESS COMMITTEE

The Director of Curriculum or designee will be the designated contact persons for all areas related to the District Wellness Policy.

The District will convene a representative District Wellness Committee that meets at minimum 2 times per year to establish goals for and oversee school health and safety policies and programs, including development, implementation and periodic review and update of this district-level wellness policy.

The District Wellness Committee will be comprised of administration, parents, and community members, representatives of the School Food Authority, Registered Nurses, Registered Dietitians, and educational staff.

All of the school buildings shall have a wellness liaison to assist in facilitating wellness activities within their designated facility.

NUTRITIONAL STANDARDS

Our school district is committed to serving healthy meals to children, with plenty of fruits, vegetables, whole grains, and fat-free and low-fat milk; that are moderate in sodium, low in saturated fat, and have zero grams trans-fat per serving (nutrition label or manufacturer's specification); and to meeting the nutrition needs of school children within their calorie requirements. The school meal programs aim to improve the diet and health of school children, help mitigate childhood obesity, model healthy eating to support the development of lifelong healthy eating patterns and support healthy choices while accommodating cultural food preferences and special dietary needs.

Schools within the District participate in USDA child nutrition programs, including the National School Lunch Program (NSLP), the School Breakfast Program (SBP).

Schools within the District are committed to offering school meals through the NSLP and SBP programs, and other applicable Federal child nutrition programs, that:

- Are accessible to all students;
- Are appealing and attractive to children;
- Are served in clean and pleasant settings;
- Meet or exceed current nutrition requirements established by local, state, and Federal statutes and regulations. (The District offers reimbursable school meals that meet USDA nutrition standards.)
- Promote healthy food and beverage choices using at least ten of the following Smarter Lunchroom techniques:
 - Whole fruit options are sliced or cut fruit is available daily.
 - At least two fruit options are offered daily.
 - Daily fruit options are displayed in a location in the line of sight and reach of students.
 - All staff members, especially those serving, have been trained to politely prompt students to select and consume the daily vegetable options with their meal.
 - Alternative entrée options (e.g., salad bar, yogurt parfaits, etc.) are highlighted on signs within all service and dining areas.
 - A reimbursable meal can be created in any service area available to students
 - Student surveys and taste testing opportunities are used to inform menu development, dining space decor and promotional ideas.
 - Student artwork is displayed in the service and/or dining areas.
 - Daily announcements are used to promote and market menu options.
- Menus will be posted on the District website or individual school websites.
- Menus will be created by a Registered Dietitian or other certified nutrition professional.
- The District child nutrition program will accommodate students with special dietary needs within the regulations provided by the USDA.
- Students will be allowed at least 10 minutes to eat breakfast and at least 20 minutes to eat lunch, counting from the time they have received their meal and are seated
- Students are served lunch at a reasonable and appropriate time of day.

- Lunch will follow the recess period, to the extent possible, to better support learning and healthy eating.
- Participation in Federal child nutrition programs will be promoted among students and families to help ensure that families know what programs are available in their children's school.
- The District will implement at least four of the following five Farm to School activities, to the extent possible:
 - Local and/or regional products are incorporated into the school meal program;
 - Messages about agriculture and nutrition are reinforced throughout the learning environment;
 - School hosts a school garden;
 - School hosts field trips to local farms; and
 - School utilizes promotions or special events, such as tastings, that highlight the local/ regional products.

Water

To promote hydration, free, safe, unflavored drinking water will be available to all students throughout the school day and throughout every school campus. The District will make drinking water available where school meals are served during mealtimes.

- All water sources and containers will be maintained on a regular basis to ensure good hygiene and health safety standards. Such sources and containers may include drinking fountains, water jugs, hydration stations, water jets and other methods for delivering drinking water.
- Students will be permitted to bring/carry/ keep (approved) water bottles, filled with only water, with them throughout the day. Students are responsible for their own water bottle and cleanliness of the bottle. (The school is in no way responsible for broken or stolen water bottles.)

Competitive Foods and Beverages

The District is committed to ensuring that all foods and beverages available to students on the school campus during the school day support healthy eating. The foods and beverages sold and served outside of the school meal programs (e.g., “competitive” foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day and create an environment that reinforces the development of healthy eating habits.

A summary of the standards and information, as well as a Guide to Smart Snacks in Schools are available at: <http://www.fns.usda.gov/healthierschoolday/tools-schools-smart-snacks>. The Alliance for a Healthier Generation provides a set of tools to assist with implementation of Smart Snacks available at www.foodplanner.healthiergeneration.org. To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards. These standards will apply in all locations and through all services where foods and beverages are sold, which may include, but are not limited to, à la carte options in cafeterias, vending machines, school stores and snack or food carts, throughout the school day.

NUTRITION PROMOTION & EDUCATION

Nutrition promotion and education positively influence lifelong eating behaviors by using evidence-based techniques and nutrition messages, and by creating food environments that

encourage healthy nutrition choices and encourage participation in school meal programs. Students and staff will receive consistent nutrition messages throughout schools, classrooms, gymnasiums, and cafeterias. Nutrition promotion also includes marketing and advertising nutritious foods and beverages to students and is most effective when implemented consistently through a comprehensive and multi-channel approach by school staff, teachers, parents, students and the community.

The District will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will occur through at least:

- Implementing at least ten or more evidence-based healthy food promotion techniques through the school meal programs using Smarter Lunchroom techniques; and
- Ensuring 100% of foods and beverages promoted to students meet the USDA Smart Snacks in School nutrition standards. Additional promotion techniques that the District and individual schools may use are available at <http://www.foodplanner.healthiergeneration.org/>.

NUTRITION EDUCATION

The District will teach, model, encourage and support healthy eating by all students. Schools will provide nutrition education and engage in nutrition promotion that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health;
- Is part of not only health education classes, but also integrated into other classroom instruction through subjects such as math, science, language arts, social sciences and elective subjects;
- Includes enjoyable, developmentally-appropriate, culturally-relevant and participatory activities, such as cooking demonstrations or lessons, promotions, taste-testing, farm visits and school gardens;
- Promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products and healthy food preparation methods;
- Emphasizes caloric balance between food intake and energy expenditure (promotes physical activity/exercise);
- Links with school meal programs, cafeteria nutrition promotion activities, school gardens, other school foods and nutrition-related community services;
- Teaches media literacy with an emphasis on food and beverage marketing; and
- Includes nutrition education training for teachers and other staff.
- In elementary schools, nutrition education will be offered at each grade level as part of a sequential, comprehensive, standards-based health education curriculum that meets state and national standards.
- All health education teachers will provide opportunities for students to practice or rehearse the skills taught through the health education curricula.

Essential Healthy Eating Topics in Health Education

The District will include in the health education curriculum a minimum of 12 of the following essential topics on healthy eating:

- Relationship between healthy eating and personal health and disease prevention
- Food guidance from MyPlate
- Reading and using FDA's nutrition fact labels
- Eating a variety of foods every day
- Balancing food intake and physical activity
- Eating more fruits, vegetables and whole grain products
- Choosing foods that are low in fat, saturated fat, and cholesterol and do not contain trans fat

- Choosing foods and beverages with little or no added sugars
- Choosing low-fat or fat-free dairy products
- Eating more calcium-rich foods
- Preparing healthy meals and snacks
- Risks of unhealthy weight control practices
- Accepting and understanding body size differences
- Food safety
- Importance of water consumption
- Importance of eating breakfast
- Making healthy choices when eating at restaurants
- Eating disorders
- The Dietary Guidelines for Americans
- Reducing sodium intake
- Social influences on healthy eating, including media, family, peers and culture
- How to find valid information or services related to nutrition and dietary behavior
- How to develop a plan and track progress toward achieving a personal goal to eat healthfully
- Resisting peer pressure related to unhealthy dietary behavior
- Influencing, supporting, or advocating for others' healthy dietary behavior

FOOD MARKETING

The District is committed to providing a school environment that ensures opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. The District strives to teach students how to make informed choices about nutrition, health and physical activity. These efforts will be weakened if students are subjected to advertising on District property that contains messages inconsistent with the health information the District is imparting through nutrition education and health promotion efforts. It is the intent of the District to protect and promote student's health by permitting advertising and marketing for only those foods and beverages that are permitted to be sold on the school campus, consistent with the District's wellness policy.

Any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed the USDA Smart Snacks in School nutrition standards.

Food and beverage marketing is defined as advertising and other promotions in schools. Food and beverage marketing often includes an oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product made by the producer, manufacturer, seller or any other entity with a commercial interest in the product. This term includes, but is not limited to the following:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.
- Displays, such as on vending machine exteriors
- Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards or backboards
- Corporate brand, logo, name or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book covers, pupil assignment books or school supplies displayed, distributed, offered or sold by the District.
- Advertisements in school publications or school mailings.
- Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product.

As the District/school nutrition services/Athletics Department/PTA/PTO reviews existing contracts and considers new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by the District wellness policy.

FOOD IN THE CLASSROOM

All foods offered on the school campus will meet or exceed the USDA Smart Snacks in School nutrition standards. The district strongly encourages non-food items for celebrations and awards within the classroom. Below are suggestions:

- Pencils
- Stickers
- Key chains
- Music in the classroom
- Have class outside
- Homework pass

In the event a food item is provided for a celebration or award, it is strongly encouraged that the snacks be a healthy choice, including fruits, vegetables, and whole grains as part of the classroom snack or celebration. The District will provide teachers and other relevant school staff a list of alternative ways to reward children. Foods and beverages will not be used as a reward, or withheld as punishment for any reason, such as for performance or behavior.

PHYSICAL ACTIVITY AND EDUCATION

A sequential, comprehensive physical education program shall be provided for students in K-12 in accordance with the standards and benchmarks established by the State.

Physical activity and movement shall be integrated, when possible, across the curricula and throughout the school day. Schools shall offer a wide range of physical activities outside the regular school day.

With regard to other school-based activities, students, parents, and other community members shall have access to, and be encouraged to use, the school's outdoor physical activity facilities outside the normal school day.

STAFF WELLNESS

Oak Hills highly values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle. School-based or school-linked programs will be available and offered in an effort to promote employee wellness and to facilitate positive role modeling for students

MONITORING AND POLICY REVIEW

The Superintendent or his/her designee will report annually to the Board on the District Wellness Committee's progress and on its evaluation of the policy's implementation and areas for improvement, including status of compliance by individuals schools and progress made in attaining the policy's goals. The annual wellness progress report will be available for public viewing in accordance with the Federal guidelines.

Progress towards health/wellness goals will be provided to the community via the district website and through paper distribution at the start of every school year. Presentations to the school board will be on an annual basis. All members of the Oak Hills community are encouraged and welcomed to participate in the district wellness initiatives and events.
