	characte	er's thoughts, words, or actions).	In the next grade band, students are expected to cite evidence that reflects the theme or main idea without adding personal judgment and describe how plot events or scenes build on and impact one another.	

#### Enduring Understanding

Imaginative texts can provide rich and timeless insights into universal themes, dilemmas and social realities of the world. Literary text represents complex stories in which the reflective and apparent thoughts and actions of human beings are revealed. Life therefore shapes literature and literature shapes life.

Strand	Reading: Literature

Instructional Strategies and Resources	

# Becoming a Journalist

Teach the four Ws and H (who, what, when, where and how) as a way to simplify summarization. Ask students to answer each of the questions based on what they have read. Once the five questions are answered, have them reduce their answers to a single sentence to produce a concise summary.

#### Main Idea – Supporting Details Sort

Write the main idea and three to four supporting details from a selected text, each on its own note card. After students have read or heard the text read aloud, place them in small groups. Give each group a set of note cards. Allow small groups to discuss each note card and determine which of the cards has the main idea and which have supporting details. As students' comfort level with this activity increases, they can become card developers for their classmates.

*Living Literature: Using Children's Literature to Support Reading and Language Arts* by Wendy C. Kasten, Janice V. Kristo, Amy A. McClure and Abigail Garthwait (Prentice Hall, 2004) discusses ways to integrate literature into the literacy program.

Торіс	Craft and Structure	
Instructional Strategies and Resources		

#### Story Elements

When facilitating an independent or shared reading with the class, the teacher will brainstorm elements of the story that contribute to the theme of the text. Students will work with a partner to complete a graphic organizer listing possible themes with the corresponding supporting details. Each partner grouping will join another partner grouping to discuss and come to consensus.

#### **Categorizing Structural Elements**

Create a three-column chart. Label each column with a literary form (i.e., poetry, drama, narrative). Have students brainstorm the structural elements that are common to each. Encourage students to provide examples of each genre from their own reading to include on the chart. Post the chart and revisit it throughout the year to add or refine elements or to add other examples. Have students use the chart to classify pieces of literature and informational text that they read independently. The chart also can be used as a guide for setting up and running a student-led classroom library that is organized by genre.

*Guiding Readers and Writers: Teaching Comprehension, Genre, and Content Literacy* by Irene C. Fountas and Gay Su Pinnell (Heinemann, 2001) discusses building a classroom literacy community for students in grades 3-6 through word study, language, reading and writing along with the visual and performing arts using a broad language/literacy framework. The book suggests research-based strategies for the intermediate student.

Happily Ever After: Sharing Folk Literature With Elementary and Middle School Students by Terrell A. Young (International Reading Association, 2004) defines folk literature and provides strategies for teaching.

Instructio	nal Strategies and Resources
Reciproca	Teaching
of text. Th	se of reciprocal teaching is to facilitate group effort between the teacher and students by creating dialogue around specific segments e teacher or a student assumes the role of facilitator. The dialogue is structured around four strategies: <i>summarizing, question g, clarifying</i> and <i>predicting</i> .
	<i>mmarizing</i> gives participants the opportunity to identify and integrate important information in the text. Text can be summarized ross sentences, across paragraphs and/or across the passage.
	<i>iestion generating</i> requires participants to identify the kind of information significant enough to provide substance for a question. is information is presented in question form and is used to self-test.
un	<b>arifying</b> text understanding alerts readers to the fact there may be reasons why text is difficult to understand (e.g., new vocabulary, Iclear reference words, unfamiliar/difficult concepts). Readers should know the effects of such roadblocks to comprehension and take Iccessary measures to restore meaning (e.g., reread, ask for help).
ba	edicting occurs when students hypothesize what might occur next. In order to do this successfully, students must activate relevant ckground knowledge. The predicting strategy also facilitates use of text structure as students learn that headings, subheadings and estions imbedded in the text are useful means of anticipating what might occur next. Торіс	Phonics and Word Recognition	
decodin a.	nd apply grade-level phonics and word analysis skills in ng words. Use combined knowledge of all letter-sound correspondences, syllabication patterns, and morphology (e.g., roots and affixes) to read accurately unfamiliar multisyllabic words in context and out of context.	In the previous grade band, students were expected to master phonological awareness and concepts of print. They know common vowel and consonant-sound variants and have begun to self correct when reading. Content Elaborations The focus of the Phonics and Word Recognition topic is decoding text and understanding word parts to determine word meaning and to improve fluid reading and increased comprehension. Continuing to learn specific strategies for decoding and spelling is beneficial, even at the upper grades. Because a large number of words in English derive from Latin and Greek origins, teachers' frequent use of Latin and Greek word roots and affixes enhances not only decoding and spelling ability, but vocabulary development as well. Semantics studies involve the examination of meaning at various levels (word parts, whole words, sentences/discourse). Knowledge of word parts increases the understanding that words with common roots have similar meanings or that affixes change the meanings of words.

Words create impressions, images and expectations. Recognizing and reading words, their inflections and roots can transform the world.

Standard Sta	atements	Content Elaborations
reflectio	n, and revision) and shorter time frames (a single sitting or two) for a range of discipline-specific tasks, purposes, iences.	Effective writers build their skills by practicing a <b>Range of Writing</b> . They learn to appreciate that a key purpose of writing is to communicate clearl to an external, sometimes unfamiliar audience, and they begin to adapt the form and content of their writing to accomplish a particular task and purpose. They develop the capacity to build knowledge of a subject through research projects and to respond analytically to literary and informational sources. To meet these goals, students must devote significant time and effort to writing, producing numerous pieces over short and extended time frames throughout the year.
		In the next grade band, students are expected to write routinely over extended time frames (time for research, reflection and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks purposes and audiences.

To build a foundation for college and career readiness, students need to learn to use writing as a way of offering and supporting opinions, demonstrating understanding of the subjects they are studying, and conveying real and imagined experiences and events.

Instructional	nstructional Strategies and Resources	

#### Quick Write

Quick Write is a three-to-five minute literacy strategy designed to give students the opportunity to think about their learning. It can be used at the beginning, middle or end of a lesson. Short, open-ended statements are usually given as prompts. For example, students can be asked to write about what they learned, problems they encountered or what they liked (or did not like) about the lesson.

#### **On-Demand Writing Words**

Provide opportunities for students to work with direction or command words that are often included in on-demand writing prompts. Teach the direction words as students are developmentally and academically ready to tackle the tasks associated with them.

- **Describe** means to show the characteristics of the subject to the reader using visual or sensory details.
- *Explain* means to make something clear or easy to understand.
- **Discuss** means to provide information about all sides of a subject.
- *Compare* means to show how things are the same; contrast means to show how things are different.
- Analyze means to break apart the subject and explain each part.
- *Persuade* means to convince the reader of an argument or claim.
- Justify means to give reasons, based upon established rules, to support an argument.
- *Evaluate* means to make a judgment about the good and bad points of a subject.

(Adapted from free teacher resource material at http://penningtonpublishing.com/.)

**Engaging Readers and Writers with Inquiry: Promoting Deep Understanding in Language Arts and Content Areas with Guiding Questions** by Jeffrey Wilheim (Scholastic, 2007) includes lessons, strategies and questioning methods to incorporate inquiry into classroom practice.
